

## 标绘工具条DrawToolBar

### Class: hy.onemap.DrawToolBar

#### AMD Module Require

```
require([ "hy/onemap/DrawToolBar" ], function(DrawToolBar) { / code goes here / });
```

#### 描述

这个模块是通过创建一个工具条，工具条的下拉工具可以自动配置

#### CSS&&html

```
<div>
  <div class="childUL" dojoAttachPoint="_drawList"></div>
  <div dojoAttachPoint="_domClear">
    <ul class="boxinfo">
      <li>
        <i class="ace-icon glyphicon glyphicon-trash"></i>
        <span>清除</span>
      </li>
    </ul>
  </div>
</div>
```

## Constructor

```
new hy.onemap.DrawToolBar(option,srcNodeRef);
```

## Properties

\_listPara:下拉自定义工具条

```
\x3cli class\x3d'{type}' type='{type}' \x3e\x3ci class\x3d'ace-icon fa {iconName} bigger-100' style\x3d'margin-right: 6px;' \x3e\x3c/i\x3e\x3cspan\x3e{alias}\x3c/span\x3e \x3c/li\x3e
```

```
<li class="point" type="point"><i class="ace-icon fa fa-dot-circle-o bigger-100" style="margin-right: 6px;"></i>  
<span>标点</span> </li>
```

\_callback:多对一，多个绘图工具绑定一个返回事件处理

\_markLayer:图形图层

```
var opt = {"drawObjs": [  
  {"id": "pointDiv", "iconName": "fa-dot-circle-o", "type": "point", "alias": "标点"},  
  {"id": "drawlineDiv", "iconName": "fa-share-alt", "type": "polyline", "alias": "划线"},  
  {"id": "drawgonDiv", "iconName": "fa-square-o", "type": "polygon", "alias": "标面"}  
],  
  "map": this.map,  
  "callback": function(evt){},  
  "markLayer": xxmarkLayer  
};
```

## Methods
