地图图层切换

Class: hy.onemap.BasemapGallery
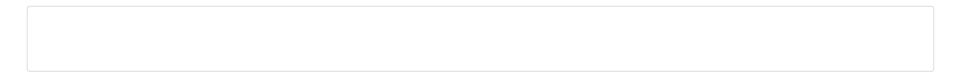

AMD Module Require

require(["hy/onemap/DrawToolBar"], function(DrawToolBar) { / *code goes here* / });

描述

这个模块是通过创建一个工具条，工具条的下拉工具可以自动配置

CSS&&html

Constructor

new hy.onemap.BasemapGallery(option,srcNodeRef);

```
var basemapGallery = new BasemapGallery({
    showArcGISBasemaps: false,
    para: [{
```

```
            id: "image",
            url: img_url,
            title: "影像",
            thumbnailUrl: "/Areas/Guard/Content/images/i.png"
        }, {
            id: "vector",
            url: pgis_url,
            title: "矢量",
            thumbnailUrl: "/Areas/Guard/Content/images/v.png"
        }],
        map: map
    }, "basemapGallery");
    basemapGallery.startup();
    basemapGallery.on("selection-change", function () {
        var basemap = basemapGallery.getSelected();
        //console.log(basemapGallery.getSelected());
    });
```

Properties

```
        init: function() {
            this.inherited(arguments);
            console.log(arguments);
        },
        setSelectBaseMap:function(id){

        },
        startup: function () {
            this.inherited(arguments);
            console.log(this);
            domClass.add(this.domNode, "myGallery");
        }
```
